Keep your Taps running

Rehoboth Town Council urge all its customers with arrears on their accounts to please visit the Finance Department Credit Controllers to renew payment arrangements on their accounts to avoid disconnection.

The conversion to the Munsoft Financial system does not recognise arrangements made previously therefore all customers who made prior arrangements on the arrear accounts are encouraged to contact the Finance Department to avoid being listed for disconnection of water and electricity services.

Let us help you plan to pay off your historical debt over a short period of time, using the flexible repayment options available to avoid disconnection of services.

Please take note if no arrangements are recognised on the system, or no payments received, than the system automatically add your name to the disconnection list, hence services will be disconnected without notification.
